EDUCATION

Vellore Institute of Technology

Sep 2023 – May 2027

- B.Tech in Computer Science and Engineering — **CGPA: 9.16**

SKILLS SUMMARY

- **Languages:** Python , C++ , R , Java, SQL | **Data Visualization:** Power BI, Tableau, Matplotlib, Seaborn | **Databases:** SQLite
- **Data Analysis & Machine Learning:** Pandas, NumPy, Scikit-learn, Exploratory Data Analysis (EDA), Random Forest
- **Developer Tools:** GitHub , Streamlit , Jupyter Notebook , Excel | **CS Fundamentals:** DBMS, OS

PROJECTS

Customer Churn Analysis([LINK](#))

Jan 2026 – Feb 2026

Tech Stack: Python, Pandas, NumPy, SQLite, Matplotlib, Seaborn, Jupyter Notebook

- Merged **3+ customer datasets** into a unified dataset for comprehensive churn analysis by using **SQLite** and **pandas**.
- Performed data cleaning, preprocessing, and feature engineering to improve data consistency by using **pandas** and **numpy**.
- Analyzed **8+ business KPIs** to evaluate customer behavior, retention trends, and churn risk across different customer segments.
- Built **10+** visualizations using **matplotlib** and **seaborn** to identify key churn drivers and customer retention insights.

Hotel Revenue Analysis([LINK](#))

Oct 2025 – Dec 2025

Tech Stack: Power BI, Excel, Power Query, DAX, SQL, Python (Pandas, NumPy)

- Developed and fine-tuned a **hotel revenue analytics solution** achieving **87% accuracy** in identifying revenue and occupancy trends across booking data.
- Minimized reporting inconsistencies by rigorous **data cleaning** and transformation processes.
- Implemented **segmentation and trend analysis techniques** to address demand variability, leading to improved analytical performance.
- Successfully enhanced **revenue insights** while optimizing dashboard performance by 23% and analytical accuracy by 6%.

Wine Quality Prediction Using Random Forest([LINK](#))

Jul 2024 – Aug 2024

Tech Stack: Python, Pandas, NumPy, Scikit-learn, Random Forest, Streamlit, Matplotlib, Jupyter Notebook

- Developed and deployed a **Random Forest-based machine learning model** achieving **90%+ prediction accuracy** by analyzing 10+ physicochemical features, enabling reliable wine quality classification.
- Evaluated and optimized model performance using **accuracy metrics and cross-validation**, and deployed an interactive **Streamlit web application**, improving model accessibility and usability.

EXPERIENCE

Data Analysis Intern | Avijo

Mar 2026 – Jun 2026

- Analyzed and cleaned datasets using **Python (Pandas, NumPy)** and **SQL**, improving data accuracy and reporting reliability by 20%.
- Built interactive dashboards and visual reports in **Power BI** and **Excel** to track key business metrics, enabling faster, data-driven decisions for stakeholders.
- Performed exploratory data analysis and root-cause investigation across 5+ datasets, surfacing actionable insights that supported process and performance improvements.

Data Visualization Intern | Infosys Springboard

Oct 2025 – Dec 2025

- Streamlined data collection and reporting workflows, reducing processing time by **20%**, and implemented data modeling and dashboard automation solutions that improved reporting productivity by **15%**.
- Collaborated with **3+** cross-functional teams to gather requirements and align project scope with business objectives, producing **15+ comprehensive Power BI dashboards** and analytical reports summarizing revenue trends, KPIs, and recommendations.
- Conducted in-depth revenue, occupancy, and cancellation research analysis, identifying **10+ key trends** and insights that informed strategic decision-making and enabled clear stakeholder communication.

CERTIFICATES

- Google **Data Analytics Professional Certificate** (8 courses) (LINK)
- **Machine Learning Specialization** (Stanford & DeepLearning AI)(LINK)

Mar 2025

Dec 2024

CO-CURRICULAR

- Solved **500+** problems on leetcode (earned **360 days badge**) and completed 100 days challenge
- Deloitte Hacksplasion 2025 – **Level 3 Mastermind**(Top 60 team)
- Be Hackfest Round 2 Qualifier(worked on Inventory optimization case study)

May 2026

Feb 2026
